

DID YOU KNOW?

Unthinkably, there are over 33,000 veterans who served our country and are now homeless. And worse, that number has not changed appreciably in over a decade!

MIGHTY HERO HOMES HAS DEVELOPED A SCALABLE SOLUTION.

Mighty Hero Home communities ("Bases") will be constructed across the U.S. to provide safe, healthy and community-oriented environments from which a veteran never has to move!

AN EGREGIOUS CRISIS.

Joblessness, hopelessness and escalating suicide rates are all consequences of being homeless. There are simply not enough affordable homes available to our veterans without new housing solutions.

A BETTER TOMORROW.

Our veterans desire and need the most crucial anchor that creates stability – a home. They need a home of their own in well-conceived, developed communities where jobs exist, and requisite care is easily accessible. Community support is mission critical. The Mighty Hero Home Foundation will train, equip and mobilize local businesses, churches, and other civic organizations to sponsor each Base resident. With a renewed sense of belonging and hope, the incredible talent, knowledge, and value our veterans possess will create generational change in the cities where Bases are built.

GIVE TODAY.

BECAUSE THEY DESERVE BETTER.
